COMPUTER ENGINEER

Computer Engineering student at UPTJAA with more than 2 years of experience in FrontEnd web development and knowledge of Front technologies. I am passionate about designing, laying out, animating and coloring websites, it feels like building Legos. I always try to write clean code for a clearer reading. I am constantly learning and always willing to learn new technologies. My current goal is to enter the workforce as a Front-End developer and master CSS with JavaScript, and then learn to use Three.JS.

SKILLS

Excel: Intermediate Level.

Programming Languages:

- JavaScript
- HTML/CSS3
- Python
- Typescript

Frameworks:
